

3rd Annual Animal Science Conference

9/30/2013 - 10/01/2013

Sponsorship

Presented by: Gray Plant Mooty

Gray Plant Mooty is pleased to sponsor the 3rd Annual Animal Science Conference. This conference will be held at the MinnWest Technology Campus in Willmar, MN with a pre-event reception on September 30 at the nearby Holiday Inn. The daylong conference will feature speakers and panels covering the latest industry trends, encourage networking, and facilitate deal flow between investors and animal science companies seeking funding. Our own Kermit Nash will be the emcee for the day, with Phil Kunkel moderating the Economic Outlook panel and Jeff Peterson moderating the Consumer Demand panel.

This conference will unite early stage animal science companies, venture capitalists, angels and strategic investors interested in animal science companies, and others that are important to the success of the industry - service providers, university representatives and economic development leaders to network and discuss industry investment trends.

Why you should attend:

- Network - share best practices with other angel investors in a closed forum.
- Learn - Timely panel presentations and knowledgeable industry speakers will discuss the latest trends and issues facing the industry.
- Deal Flow - Hear presentations from pre-screened Animal Science companies that are currently fundraising.

Registration

Angel investors, Strategic Investors, Venture Capitalists, Entrepreneur and Animal Science Industry Representatives may register at no cost. Economic Development Representatives spaces are sold out. [Click here to register.](#)
